PROFESSIONAL PROFILE

Full Stack Developer with 6+ years of professional experience and 10+ years of self-taught development, specialized in large-scale web and mobile applications. Expert in Angular (AngularJS to v21), React, Ionic and Node.js, with solid command of MySQL and relational database design.

Proven track record transforming legacy systems into scalable, maintainable platforms — technology migrations, stack modernization, offline-first architectures and CI/CD pipeline automation. Able to take on technical leadership responsibilities when the project requires it, without losing focus on hands-on execution.

STACK TECNOLÓGICO

Frontend / Mobile: Angular · React · TypeScript · Ionic · Cordova · Capacitor · HTML5 · CSS3

Backend / Infra: Node.js · PHP · MySQL · REST APIs · Docker · Azure · Cloudflare R2 · Firebase · MongoDB · AWS

Practices: CI/CD · Git · Agile/Scrum · Code Review · Legacy Modernization

PROFESSIONAL EXPERIENCE

WS Solutions - Cesla

Full Stack Developer / Tech Lead · Nov 2024 – Feb 2026

- Maintained and evolved 2 web apps, 5 mobile apps and 5 APIs for 40 clients and thousands of users, ensuring sustained availability >95%.
- Designed and executed the migration from Azure Blob Storage to Cloudflare R2, reducing traffic costs by 50% with zero production impact.
- Led the mobile app modernization from Ionic 3 to Ionic 8, improving maintainability and extensibility across the entire platform.
- Implemented CI/CD pipelines that reduced deployment time from ~1 hour to 5 minutes, increasing release frequency to 4–6 per month.
- Automated build and distribution on Firebase and app stores, cutting build generation time from half a day to 5 minutes and eliminating configuration errors.

- Enforced code quality through systematic code reviews, contributing to 50% fewer recurring incidents in production.
- Coordinated with DevOps, QA and Support teams, accelerating incident resolution and optimizing delivery processes.

Stack: Angular · ReactJS · Ionic · PHP · MySQL · Node.js · Docker · Azure · Cloudflare R2 · Firebase · Android · iOS · CI/CD

WS Solutions - Cesla

Full Stack Developer · May 2021 – Nov 2024

- Maintained and evolved full stack features in ReactJS, PHP and JS, delivering 8–10 features per sprint with parallel incident resolution for 40 clients and thousands of users.
- Participated in technical architecture definition, optimizing scalability and maintainability of legacy systems and new products.
- Refactored and modularized legacy systems, achieving a 60% reduction in codebase size.
- Maintained 5 hybrid mobile apps with Ionic (Android/iOS), integrating native plugins and ensuring consistency across devices and environments.
- Implemented an offline-first architecture with data synchronization for continuous operation without connectivity.
- Managed file storage on Azure Blob Storage, optimizing efficiency and reducing data access complexity.

Stack: Angular · Node.js · ReactJS · Ionic · PHP · MySQL · Azure Blob Storage · Android · iOS · REST APIs

Apex America - Cognitive

Front-End Developer · Jan 2020 – Mar 2021

- Developed and maintained dynamic interfaces with AngularJS in high-volume applications, ensuring consistent UX and cross-browser compatibility.
- Implemented client-configurable conversational flows within a multi-tenant architecture, enabling rapid customizations for multiple accounts.
- Participated in code reviews and promoted front-end best practices, improving code quality and product evolution.

Stack: AngularJS · JavaScript · HTML5 · CSS3 · MongoDB · AWS · REST APIs

EDUCATION

Information Systems Analyst · Instituto Cervantes · 2020
